

American One

American One pellet is a product of pure debarked fir wood. Manufactured in a modern wood processing plant.

Its main characteristic is the very low ash content and good calorific value.

American one is a product known on the market and highly appreciated by customers.

We can say that it is one of the most popular products in southern Italy.

Its EN PLUS A1 certification guarantees that the product is obtained only from pure wood without additives or adhesives.

Technical data

Pallet height 170 cm **Weight of the pellet** 1050 kg

Bag for pellet 70

Bags for layer 7

Calorific value

Technical characteristics

Calorific value	≤ 4,8 Kwh/kg
Ash	≤ 0,3%
Humidit	< 8%
Max length	30mm
Density	600-650 kg m3
Sulfur content	<0,03%

Quality certifications

American One
certification **EN Plus A1**

Available bags

15kg
